Fifth subsequent trading session

Corrected 30-feature LightGBM candidate · 2026 observed outcomes

Model MAE 70.00 INR **Unchanged-close MAE 68.93 INR** **Difference +1.07 INR**

Candidate shown; adopted policy is unchanged close. The 2026 period was already inspected.

Each point is one stock and target date. Price axes are logarithmic; the middle panel shows how little of the actual move the model predicts. Monthly MAE is averaged within stock, then equally across stocks.
